

Wholesale Greenhouse Company Spruces Up Security and Technology Support from Comcast Business

Kasarda's Greenhouse monitors merchandise and property, improves customer and employee experiences with Comcast Business SmartOffice™

WYOMING, PA – DEC. 16, 2021 – [Comcast Business](#) today announced [Kasarda's Greenhouse](#), a Wyoming, PA-based wholesale greenhouse company, has deployed Comcast Business SmartOffice to support their self-monitoring needs, while also helping to improve efficiencies.

For more than 60 years, Kasarda's Greenhouse has provided quality florals, produce and seasonal décor to the local public and businesses of the Wyoming Valley and surrounding areas. Additionally, the wholesale greenhouse has operated a retail division since 1973, establishing itself as a trusted source for the community by offering hanging baskets, flowers, herbs, vegetables and more.

Kasarda's continued success and business growth ushered in needs for added monitoring and technology.

Seeking a reliable and affordable solution, Kasarda's Greenhouse selected [Comcast Business SmartOffice](#) and implemented the technology across four sites. Recently, when the nursery needed help to keep an eye on its inventory, SmartOffice was there to help.

"We needed smart, reliable technology to keep an eye on our locations," said Michael Wintermute, Operations Coordinator, Kasarda's and Evercor Facility Management. "With many moving parts across our facilities and business, we need technology to work in the background without having to actively manage it or think about it further. Comcast Business SmartOffice provides that desired service for us."

Kasarda's Greenhouse technology solution includes several Comcast Business SmartOffice cameras for self-monitoring, including at their retail location and at the growing ranges, allowing management to keep an eye on the nursery and retail locations from anywhere and on any device. In addition, management can monitor for in-store customer activity in their retail location to make real-time adjustments and deploy staff to ensure employees are effectively serving customers.

"We are proud to support Kasarda's as they seek out technology to enhance self-monitoring, as well as the employee and customer experience," said Aaron Mimran, Regional Vice President of Comcast Business for Comcast's Keystone Region. "Beyond providing support as a technology provider, we are pleased to give their team the confidence to remain focused on their business and providing customers with the exceptional experience they are known for."

About Kasarda's Greenhouse

Established in 1957 as a wholesale greenhouse, we've been providing quality florals, produce, and seasonal decor to the local public and businesses of the Wyoming Valley and surrounding areas for over 60 years.

Since 1973, when we launched our retail division, we have grown to be a trusted friend to the local community and have even become a tradition for many who through the years have purchased their hanging baskets, flowers, herbs, and vegetables from us.

Our greenhouse is full of seasonal treasures from annuals and perennials, herbs and vegetables, seasonal decor, succulents, and gardening supplies. Be sure to visit often as each season blooms with its own color, uniqueness, and beauty.
