
Comcast Business Expands Partnership with Cisco to Bring Secure Networking Solutions to Millions of Emerging Enterprises

Cisco Meraki platform now optimized and priced for emerging enterprises, backed by Comcast Business's scale and expertise

PHILADELPHIA – OCTOBER 21, 2025 – [Comcast Business](#) today announced the expanded availability of its fully managed secure networking solution built on the Cisco Meraki platform, extending enterprise-grade secure networking to emerging and distributed enterprises across the U.S. This strategic expansion builds on Comcast Business's longstanding partnership with Cisco and reinforces its leadership in delivering scalable, secure networking solutions that grow with businesses.

The Meraki Technology Stack from Comcast Business is a cloud-first, fully integrated networking and security solution that combines SD-WAN, WiFi, switching, and unified threat management (UTM) into a single, intuitive platform. Designed for lean IT environments and supporting rapid deployment across enterprises with 1 to 100+ sites, the Cisco Meraki platform is ideal for growing enterprises navigating digital transformation and evolving cybersecurity threats.

"Secure, scalable connectivity is no longer a luxury, it's a business imperative," said Terry Traina, SVP and Head of Secure Networking and Cybersecurity Product Management, Comcast Business. "We're proud to offer a solution that meets the needs of growing enterprises with the same reliability and performance trusted by the Fortune 500. With the Meraki Technology Stack from Comcast Business, businesses can focus on what they do best, while we help them with their networking needs."

Comcast Business's expertise in secure networking is backed by its top ranking on the [2024 U.S. Carrier Managed SD-WAN Services Leaderboard](#) from Vertical Systems Group, and recognition from leading analysts including by [Gartner](#), [ISG](#), and [Frost & Sullivan](#). The company's proven ability to deliver high-performance, cloud-managed solutions at scale has made it a preferred partner for enterprises navigating digital transformation, hybrid work, and evolving cybersecurity demands.

Key Benefits of the Meraki Technology Stack from Comcast Business:

- **One Partner, One Platform:** Comcast Business offers a fully managed solution with 24x7 monitoring, patching, and support.
- **Built for Lean IT:** Plug-and-play deployment with centralized dashboard – no deep technical expertise required.
- **Enterprise-Grade, Right-Sized:** Optimized and priced for emerging enterprises, with flexible models and nationwide delivery.

With this expanded offering, Comcast Business reinforces its commitment to delivering secure, scalable, and simplified networking solutions that meet the needs of modern businesses – wherever they are on their growth journey.

"At Cisco, our mission is to empower organizations of every size to thrive in an increasingly connected world," said Lawrence Huang, SVP & GM, Network Platform & Wireless, Cisco. "Comcast Business expanding access to the Cisco Meraki platform means that enterprise-grade networking is no longer out of reach for growing businesses. By building on our success together, it's easier for emerging mid-size businesses to harness powerful, cloud-managed solutions, including Agentic AI capabilities, so they can innovate and scale confidently and securely in the AI Era."
