

Peninsula Life Church Enhances Live Streaming and Community Outreach with Comcast Business Dedicated Internet

Reliable, High-Speed Internet Enables Seamless Services and Expands Reach for Remote Worshippers and Local Families

Gig Harbor, Wash. – SEPTEMBER 25, 2025 – [Comcast Business](#) is helping [Peninsula Life Church](#) reach more people through a major technology upgrade that includes Comcast Business Dedicated Internet. The new service delivers fast, reliable speeds up to 200 Mbps – enabling high-quality livestreaming and empowering stronger community impact.

Peninsula Life Church, based in Gig Harbor, has been serving the community for the past 7 years. To better connect with its growing congregation – including deployed service members and distant families – the church sought to improve its livestream capabilities. Previously limited by slow bandwidth, both production teams and online viewers faced frequent frustrations. That changed with the recent installation of Comcast Business's Dedicated Internet solution. Now, Peninsula Life Church delivers dynamic, pre-programmed video and full live services, streaming seamlessly to audiences across social media platforms.

"Comcast Business has truly transformed our digital capabilities and how we connect with our community. The reliable Internet allows us to stream our services seamlessly, reaching our growing congregation wherever they are in the world," said Dustin Langley, senior pastor, Peninsula Life Church. "This technology has become the essential foundation that empowers us to share our message and be a vital force for good in our community."

Beyond digital worship, the enhanced Internet is powering Peninsula Life Church's deep commitment to serving the local community. The church highlights and supports nonprofit partners weekly through its livestream and social channels – raising awareness and driving engagement for groups including one which supplies groceries to families over the summer break.

Looking ahead, Peninsula Life Church is expanding its digital outreach. Plans are underway to launch a dedicated TV app for livestreaming services, making it even easier for viewers to stay connected. The church is also exploring partnerships with correctional facilities in the region to bring services into local women's prisons, offering spiritual support to underserved communities. Additionally, the church plans to revamp its website that will include an embedded livestreaming app – powered by the upgraded internet connectivity.

"We're proud to provide Peninsula Life Church with the technology services they need to fulfill their mission," said Rob Brenner, Vice President of Comcast Business for Comcast's Pacific Northwest Region. "By equipping them with robust connectivity, we empower them to expand their reach, and continue making a significant positive impact on their community and beyond."
