

## Comcast Business Powers Advanced Connectivity for Pittsburgh Penguins Facilities

*New 6GHz WiFi Network Doubles Wireless Capacity Across PPG Paints Arena and UPMC Lemieux Sports Complex*

**PHILADELPHIA – March 10, 2026 – [Comcast Business](#)** has completed a major connectivity upgrade for the Pittsburgh Penguins, deploying fiber-based Dedicated Internet and a next-generation 6GHz WiFi network across PPG Paints Arena and UPMC Lemieux Sports Complex. This enhanced infrastructure significantly expands wireless capacity, delivering fast, reliable, high-density connectivity for more than 18,000 fans, staff, media, and team operations.

The investment includes a new fiber link between PPG Paints Arena and the UPMC Lemieux Sports Complex in Cranberry, PA, enabling seamless data flow between the two facilities for both large-scale fan engagement and mission-critical team workflows. Comcast Business installed nearly 500 access points (APs) across both locations – including doubling the number of APs in high-density seating zones – ensuring reliable performance for everything from streaming and mobile ticketing to coaching operations, venue production, and arena systems.

From sharing goal highlights on social media to processing digital payments, supporting venue operations, and even powering WiFi-enabled Zambonis, the upgraded network strengthens every digital touchpoint of the Penguin's gameday and training-center experience.

“Our goal is to create a seamless, exciting experience for every fan who walks through our doors,” said Penguins Senior Vice President of Partnerships Steve Kelley. “Partnering with Comcast Business ensures our fans can access the information they need and share their experience at PPG Paints Arena on game day. Working with Comcast Business has made a noticeable difference for both fans and staff, keeping everyone connected to their beloved Penguins and our systems running smoothly.”

The enhanced connectivity also lays the foundation for future innovations, including expanded dynamic signage, real-time venue operations analytics, interactive fan features, and advanced digital engagement opportunities throughout the arena.

“Comcast Business is proud to power the Penguin's connectivity across both venues,” said Aaron Mimran, Regional Vice President, Comcast Business. “Behind the scenes, our network infrastructure enables smooth operations— and for fans, it means fast, reliable WiFi from the time they arrive until the final horn. These upgrades make PPG Paints Arena a digitally advanced environment in the league.”

Complimentary arena WiFi is presented by Xfinity, the [Official Internet, Video and Mobile Provider](#) of the Penguins and PPG Paints Arena. Fans can connect throughout the venue by selecting **XfinityWifiAtPPGPaintsArena**.

### **About Comcast Business**
