

**COMCAST ENTERPRISE SERVICES
PRODUCT-SPECIFIC ATTACHMENT
BUSINESS VOICEEDGE® SERVICE**

ATTACHMENT IDENTIFIER: Business VoiceEdge, Version 1.1

The following additional terms and conditions are applicable to Service Orders for Comcast's Business VoiceEdge Service. A further description of the Service is set forth in Schedule A-1 hereto.

DEFINITIONS

Capitalized terms not otherwise defined herein shall have the meaning ascribed to them in the Business Services Customer Terms and Conditions (the "**General Terms and Conditions**").

"Cisco" means Cisco Systems, Inc.

"Comcast Seats for Microsoft Teams"¹ means the optional feature Customer can purchase that integrates a Customer-provided or Comcast-managed Session Border Controller ("SBC") with Customer's Microsoft Teams phone to enable calling over the Comcast voice network within Customer's Microsoft Teams instance.

"Direct Routing" refers to a feature available within Microsoft Teams that enables businesses to connect the Service to a Microsoft Teams phone, thereby providing the ability to make and receive calls placed to/from Customer's telephone number on Customer's Microsoft Teams instance.

"Estimated Availability Date" means the target date for delivery of Service.

"Service" means the Comcast Business VoiceEdge® Service.

"Underlay Connectivity Service" means a service providing connectivity to the Internet.

"Webex" means Cisco's Webex for BroadWorks (Premium, Standard, or Basic), which is comprised of a cloud-based component and downloadable software component.

ARTICLE 1. CUSTOM INSTALLATION FEES

Once Comcast accepts a Service Order for Service, Comcast will invoice Customer for all Custom Installation Fee(s), if any. Customer will pay the Custom Installation Fee(s) within thirty (30) days of the invoice date unless a payment schedule is specified

¹ Microsoft Teams is a trademark of the Microsoft group of companies.

in the applicable Service Order.

ARTICLE 2. PROVISIONING INTERVAL

Following Comcast's acceptance of a Service Order, Comcast shall notify Customer of the Estimated Availability Date applicable to that Service Order. Comcast shall use commercially reasonable efforts to provision the Service on or about the Estimated Availability Date; provided, however, that Comcast's failure to provision Services by the Estimated Availability Date shall not constitute a breach of the Agreement.

ARTICLE 3. SERVICE COMMENCEMENT DATE

The Service Commencement Date shall be the date Comcast informs Customer (email acceptable) that the Service is available and performing at the Service Location in accordance with Schedule A-1 hereto. A single Service Order containing multiple Service Locations or services may have multiple Service Commencement Dates.

Comcast shall notify Customer that the Services are available for use on the Service Commencement Date. Any failure or refusal on the part of Customer to be ready to receive the Service on the Service Commencement Date shall not relieve Customer of its obligation to pay applicable Service charges and Comcast may terminate Services for cause as provided under the General Terms and Conditions. Comcast will consider the Service installation completed if Comcast has delivered Service, regardless of whether Customer refuses or fails to be ready to receive the Service.

Customer acknowledges and agrees that if Comcast is the provider of the Underlay Connectivity Service, charges may begin to accrue with respect to the Underlay Connectivity Service and the Service at different times.

ARTICLE 4. SERVICE REQUIREMENTS

In addition to those requirements set forth in this Product-Specific Attachment, in order to provide the Service at a Service Location, Customer is responsible for ensuring that the Service Location has the Underlay Connectivity Service. The Underlay Connectivity Service may be pre-existing or ordered in conjunction with the Service. Depending on your Service, the Underlay Connectivity Service may be provided by Comcast or a third-party provider.

IF THE UNDERLAY CONNECTIVITY SERVICE IS TERMINATED AT A SERVICE LOCATION OR UNAVAILABLE FOR ANY REASON AT ANY TIME, THE SERVICE WILL BE INOPERABLE.

ARTICLE 5. TERMINATION CHARGES; PORTABILITY; UPGRADES

5.1 The charges set forth or referenced in each Service Order have been extended to Customer in reliance on the Service Term set forth therein.

5.2 Termination Charges.

A. Subject to Section 5.3, in the event that Service is terminated following Comcast's acceptance of the applicable Service Order but prior to the Service Commencement Date, Customer shall pay Termination Charges equal to the costs and expenses incurred by Comcast in installing or preparing to install the Service plus twenty percent (20%).

B. Subject to Section 5.3, in the event that Service is terminated on or following the Service Commencement Date but prior to the end of the applicable Service Term, Customer shall pay Termination Charges equal to a percentage of the monthly recurring charges remaining for the unexpired portion of the then-current Service Term, calculated as follows:

- i. 100% of the monthly recurring charges with respect to months 1-12 of the Service Term; plus
- ii. 80% of the monthly recurring charges with respect to months 13-24 of the Service Term; plus
- iii. 65% of the monthly recurring charges with respect to months 25 through the end of the Service Term; plus
- iv. 100% of any remaining, unpaid Custom Installation Fees.

Termination Charges shall be immediately due and payable upon cancellation or termination and shall be

in addition to any and all accrued and unpaid charges for the Service rendered by Comcast through the date of such cancellation or termination.

5.3 Exclusions. Termination Charges shall not apply to Service terminated by Customer as a result of Comcast's material and uncured breach in accordance with the General Terms and Conditions.

5.4 Portability. Customer may terminate an existing Service (an "**Existing Service**") and turn up a replacement Service (i.e., activate Service at Service Locations other than the Service Locations for the Existing Service) (a "**Replacement Service**") without incurring Termination Charges with respect to the Existing Service, provided that: (a) the Replacement Service must have a Service Term equal to or greater than the remaining Service Term of the Existing Service, but in no event less than twelve (12) months; (b) the Replacement Service must have monthly recurring charges equal to or greater than the monthly recurring charges for the Existing Service; (c) Customer submits a Service Order to Comcast for the Replacement Service within ninety (90) days after termination of the Existing Service and that Service Order is accepted by Comcast; (d) Customer reimburses Comcast for any and all installation charges that were waived with respect to the Existing Service; and (e) Customer pays the actual costs incurred by Comcast in installing and provisioning the Replacement Service.

5.5 Upgrades. Customer may upgrade the capacity of an Existing Service without incurring Termination Charges, provided that: (a) the upgraded Service (the "**Upgraded Service**") must assume the remaining Service Term of the Existing Service, but in no event less than twelve (12) months; (b) the Upgraded Service must be at the same Service Location as the Existing Service; (c) Customer submits a Service Order to Comcast for the Upgraded Service and that Service Order is accepted by Comcast; (d) Customer pays Comcast's applicable nonrecurring charges for the upgrade; and (e) Customer agrees to pay the applicable monthly recurring charges for the Upgraded Service commencing with the upgrade.

ARTICLE 6. TECHNICAL SPECIFICATIONS; SERVICE LEVEL AGREEMENT

The technical specifications applicable to the Service are set forth in Schedule A-1 hereto ("**Technical Specifications**"). The service level agreement applicable to the Service is set forth in Schedule A-2 hereto and incorporated herein by reference.

ARTICLE 7: VOICE ACCEPTABLE USE POLICY

7.1 Use Restrictions. Except as expressly permitted herein, the Service may only be used at the Service Locations set forth in a Service Order. Customer is solely responsible for the lawful use of the Service and compliance with all applicable laws and regulations (including without limitation the Telephone Consumer Protection Act, 47 USC 227 et seq. (“TCPA”), the Telephone Robocall Abuse Criminal Enforcement and Deterrence (TRACED) Act, the Truth in Caller ID Act, applicable Federal Communications Commission (“FCC”) rules and orders, and applicable state telecom and consumer protection laws) and applicable third-party requirements, including without limitation outbound calling practices, consent and opt-out requirements and call recording/monitoring. If Customer uses the Service for call recording, monitoring, or analytics, Customer is solely responsible for providing all notices to and obtaining all consents from call participants as required by applicable law and providing Comcast with its policies and procedures for obtaining required consent upon written request (email acceptable). Customer expressly agrees not to use the Service for autodialing or robocalling, continuous or extensive call forwarding, telemarketing (including, without limitation, charitable or political solicitations or polling), fax or voicemail broadcasting or blasting or for any other use that results in usage that is excessive or inconsistent with standard commercial calling patterns, as determined by Comcast. Customer also expressly agrees that it shall not use the Service in violation of the call spoofing restrictions set forth in Section 7.3 or in any manner inconsistent with the terms in Sections 7.2 and 7.3 herein. Customer shall not use the Service to originate or facilitate calls employing prerecorded voices, artificial intelligence-generated voices, deepfake audio, synthetic speech, or any other technology that simulates a human voice without the prior express consent (or, where required, prior express written consent) of the called party as required under the TCPA and applicable FCC rules. Customer assumes all responsibility for compliance with such requirements. If Comcast determines, in its reasonable discretion, that Customer’s use of the Service is excessive relative to standard commercial calling patterns or is in violation of the Agreement or any applicable law, Comcast reserves the right, in addition to any other remedies available under the Agreement or at law, to terminate or modify the Service immediately and without notice. CUSTOMER AGREES TO DEFEND, INDEMNIFY, AND HOLD HARMLESS COMCAST AND COMCAST’S AFFILIATES AND ITS AND THEIR

RESPECTIVE DIRECTORS, OFFICERS, EMPLOYEES, AGENTS, PARTNERS, SUPPLIERS, (SUB)CONTRACTORS, ATTORNEYS, LICENSORS, SUCCESSORS AND ASSIGNS (EACH, A “COMCAST ASSOCIATED PARTY” AND COLLECTIVELY, THE “COMCAST ASSOCIATED PARTIES”) FROM ANY AND ALL CLAIMS, LOSSES, DAMAGES, FINES, PENALTIES, COSTS, AND EXPENSES (INCLUDING BUT NOT LIMITED TO REASONABLE ATTORNEY FEES) BY, OR ON BEHALF OF, CUSTOMER OR ANY THIRD PARTY OR USER OF THE SERVICE RELATING TO CUSTOMER’S FAILURE TO COMPLY WITH THIS ARTICLE 7.

7.2 Fraudulent and Robocall Traffic.

(a) Comcast reserves the right to investigate suspicious calls and calling patterns.

(b) Comcast assumes no liability for (i) calls to Customer that Comcast blocks as fraudulent or illegal robocall traffic or (ii) calls made by Customer that are blocked by third party providers or Comcast as the result of any fraud or robocall mitigation efforts.

(c) If Comcast detects a pattern of calls having characteristics of illegal robocalls, or if there is otherwise a reason to suspect illegal robocalling or other suspicious activity, Comcast will seek to identify the party making such calls and take appropriate action including, but not limited to: (i) initiating a traceback investigation; (ii) verifying Customer’s right to use the calling telephone number; (iii) determining whether the calling name sent to a receiving party matches Customer’s corporate name, trademark, or fictitious name; (iv) terminating Customer’s Service; and (v) notifying law enforcement. Comcast may, but shall not be required to, inform Customer that Comcast is taking such action. Comcast reserves the right to inform an enforcement agency, or its delegate with jurisdiction, of the identity of Customer if Customer is determined to be the source of fraudulent robocalls or other illegal activity including but not limited to originating calls to telephone numbers that are on a state or federal Do Not Call list. Comcast may, but shall not be required to, inform Customer that Comcast is taking such action.

(d) Customer shall cooperate fully and promptly with Comcast in connection with any traceback investigation, subpoena, civil investigative demand, or regulatory inquiry relating to calls originated by Customer through the Service, including without limitation by providing call detail records, caller identification data, and any other information reasonably requested by Comcast or by any

governmental or industry body within the timeframe specified by such body or, if no timeframe is specified, within twenty-four (24) hours of Comcast's request.

(e) Customer represents and warrants that all calls originated through the Service are initiated by or on behalf of Customer for legitimate business purposes, that Customer has the right to use all originating telephone numbers and caller identification information associated with such calls, and that Customer has implemented reasonable internal controls to prevent the use of the Service for illegal robocalling, spoofing, or fraud by Customer's employees, agents, contractors, and end users.

7.3 Call Spoofing. Customer acknowledges and agrees that it must, at all times when using the Service to originate or otherwise facilitate calls or messages using the Service, provide accurate and complete caller ID information. Customer shall not, and agrees not to, (a) use the Service to originate or otherwise facilitate calls or messages using misleading, incomplete or incorrect caller ID information, (b) transmit or cause to be transmitted misleading or inaccurate caller identification information with the intent to defraud, cause harm, or wrongfully obtain anything of value in violation of 47 U.S.C. § 227(e) (the Truth in Caller ID Act) or any comparable state or international law or (c) deliberately falsify the information transmitted to a called party's Caller ID display to disguise its identity for any unlawful purpose. For the avoidance of doubt, Customer's obligations under this Section 7.3 extend to all calls and messages originated through the Service, whether domestically or internationally.

7.4 International Compliance. Where the Service is used to originate, terminate, or otherwise facilitate calls or messages in jurisdictions outside the United States, Customer shall comply with all applicable local telecommunications, privacy, data protection, consumer protection, and anti-spam laws and regulations in each such jurisdiction, including without limitation any registration, licensing, consent, opt-out, or notification requirements imposed on the originator of such calls or messages. Customer acknowledges that regulatory requirements for voice services, caller identification, call recording, and electronic communications vary by jurisdiction and that Customer is solely responsible for determining and complying with such requirements. Comcast shall have no liability for any failure by Customer to comply with applicable local laws in any jurisdiction where the Service is used.

ARTICLE 8: SERVICE LIMITATION

8.1 Disruption of Service. Customer

acknowledges and agrees that Service will not be available for use under certain circumstances, including without limitation, (a) when the network or facilities are not operating, (b) if normal electrical power is interrupted and Customer-Provided Equipment and/or Comcast Equipment does not have a functioning backup power or (c) if the Underlay Connectivity Service is inoperable. Customer also acknowledges and agrees that the performance of any battery backup is not guaranteed. If Customer's battery backup (if any) does not provide power, the Service, including calls to 911, will not function until both (i) power is restored, and (ii) the Comcast Network is operational. Customer also acknowledges that certain online features of the Service, will not be available under certain circumstances, including but not limited to the interruption of the Internet connection.

8.2 Provision of Service. Subject to the terms and conditions herein, the Service is intended for commercial, non-residential use only.

8.3 COUNTRIES NOT SERVED – FRAUD PREVENTION.

(a) In order to prevent international long distance fraud and reduce toll-fraud risks to the Service customers, Comcast does not include direct dialing to the following countries: Comoros; Djibouti; Eritrea; Guinea; Guinea Bissau; Guyana; Ivory Coast; Liechtenstein; Maldives; Moldova; Niue; Sao Tome; Senegal; Sierra Leone; Somalia; Suriname; Tuvalu; Vanuatu; Republic of Yemen; Zimbabwe; Algeria; Morocco; Nauru; Papua New Guinea; Saint Helena; Solomon Islands; and Western Samoa. Customers may still make calls to the foregoing countries by making operator assisted calls, which may be subject to an additional fee.

(b) Customer shall not use, and shall not permit any user or third party to use, the Services for international calling fraud, toll fraud, traffic pumping, international revenue share fraud, or any other fraudulent or abusive international calling purpose.

(c) Comcast may, without liability, block, suspend, throttle, limit, reroute, or reject international or premium-rate traffic; impose or modify spend limits, destination restrictions, authentication requirements, deposits, or prepayment requirements; or suspend and/or terminate all of any portion of the affected Services if Comcast reasonably suspects fraud, abnormal usage, compromise, or noncompliance with this Product-Specific Attachment.

(d) Customer must promptly notify Comcast of any suspected or actual compromise, unauthorized use, or

fraudulent traffic and must reasonably cooperate with Comcast's investigation and mitigation efforts.

ARTICLE 9: LIMITATIONS OF 911/E911

9.1 Limitations. The Service includes a 911/Enhanced 911 function ("911/E911") that may differ from the 911 or Enhanced 911 function furnished by other providers. As such, it may have certain limitations. CUSTOMER ACKNOWLEDGES AND ACCEPTS ANY LIMITATIONS OF 911/E911.

9.2 Correct Address. FEDERAL LAW AND MANY STATES REQUIRE BUSINESSES USING MULTI-LINE TELEPHONE SYSTEMS TO TRANSMIT SPECIFIC LOCATION INFORMATION (E.G., OFFICE NUMBER, ROOM NUMBER, FLOOR LEVEL, DIRECTIONAL QUADRANTS WITHIN INDIVIDUAL BUILDINGS, OR STREET ADDRESS FOR MULTI-LINE SYSTEMS THAT SERVE MULTIPLE DISCRETE BUILDINGS) FOR 911 CALLS. CUSTOMER ACKNOWLEDGES AND AGREES THAT CUSTOMER, AND NOT COMCAST, BEARS SOLE RESPONSIBILITY TO ENSURE THAT CUSTOMER COMPLIES WITH ALL SUCH APPLICABLE LAWS, AND ANY FAILURE TO DO SO IS A BREACH OF THE AGREEMENT. In order for 911/E911 calls to be properly directed to emergency services, Comcast must have Customer's correct Service Location address at all times. If Customer moves the Service to a different Service Location (even temporarily) without providing the correct updated information to Comcast and obtaining Comcast's prior approval, 911/E911 calls may be directed to the wrong emergency authority, 911/E911 calls may transmit the wrong Service Location address, and/or the Service (including 911/E911) may fail altogether. Therefore, Customer must contact Comcast at least thirty-six (36) business hours before moving the Service to a new Service Location, or a new location within a Service Location and provide Comcast with the updated Service Location information to ensure the records update is in place by the time of the relocation.

Customer acknowledges and agrees that 911 calls made from nomadic Customer-Provided Equipment using the Service (i.e., Customer-Provided Equipment that can be moved to multiple locations but still use the same telephone number, including for calls placed via the Required Customer Service (as defined below)) will reach the emergency authority associated with the Service Location.

9.3 Service Interruptions. Customer

acknowledges and agrees that the Service uses the electrical power in Customer's Service Location and requires that the Underlay Connectivity Service be maintained. If there is an electrical power outage, 911 calling may be interrupted if the battery backup in the associated Customer-Provided Equipment and/or Comcast Equipment (if any) is not installed, fails, or is exhausted after several hours. Additionally, if the Underlay Connectivity Service fails, all calls (including without limitation 911 calling) will be interrupted. Comcast strongly suggests that Customer (a) arrange for its own backup power supply and (b) maintain an alternative means of accessing emergency services at all times. Provided that the underlying network is still operational, the duration of the Service during a power outage will depend, among other things, on Customer's backup power choice and proper configuration of Customer's disaster recovery features. Comcast bears no responsibility for such loss of the Service.

9.4 Network Facilities. Calls, including calls to 911/E911, may not be completed if Customer exceeds the Service and equipment configuration calling capacity or if there is a problem with network facilities, including network congestion, network/equipment/power failure, or another technical problem.

9.5 Address Updates. Location updates, including updates to restore the service address to the original Registered Service Location, or failure to allot sufficient time for the Service Location update provisioning to complete may result in emergency services being dispatched to the incorrect Service Location.

9.6 911/E911 Limitations for Nomadic Users. Comcast only supports 911/E911 calls in those areas of the United States where Comcast can direct Customer's 911 calls to the appropriate Public Safety Answering Point (PSAP) in a manner consistent with applicable laws, rules and regulations, including, without limitation, FCC rules and requirements. Customer acknowledges and agrees that 911 calls made within the U.S. from nomadic Comcast Equipment and/or Customer-Provided Equipment using the Service will be directed to the emergency authority associated with the then-current Service Location address as described in Section 9.2. Customer agrees to comply with the Agreement (including this Product-Specific Attachment), all user guides, requirements and instructions provided by Comcast, including, without limitation, updating the Service Location associated with the nomadic Service, Comcast Equipment, or Customer-Provided Equipment. Nomadic Service does not support calls

to abbreviated emergency service dialing codes used outside the U.S. In such circumstances, Customer will be required to use an alternative means of accessing emergency services.

9.7 Teleworkers Users. Comcast Equipment used for teleworking is intended for primary use at Customer's registered Service Location. However, such equipment may operate from any location where Customer or Customer's authorized end user is able to access a broadband connection. In order for 911/E911 calls to be properly directed to emergency services from such Comcast Equipment, Customer must update the Service Location as instructed in Section 9.2 above.

9.8 Customer-Initiated 911 Testing. Some businesses elect to make test calls to 911 from multiple stations to verify that the 911 call taker receives the desired location information and is able to call back one or more of the telephone numbers that they receive to confirm it rings to the station from which the 911 call was placed. If Customer chooses to make test calls to 911, Customer agrees to obtain prior approval from the relevant state and local emergency communications authorities and assumes all responsibility for the placement of such calls.

9.9 Suspension and Termination by Comcast. Customer acknowledges and agrees that the Service, including 911/E911, as well as all online features of the Service, where Comcast makes these features available, will be disabled if Customer's account is suspended or terminated.

9.10 LIMITATION OF LIABILITY AND INDEMNIFICATION. CUSTOMER ACKNOWLEDGES AND AGREES THAT NEITHER COMCAST NOR ANY COMCAST ASSOCIATED PARTY WILL BE LIABLE FOR ANY SERVICE OUTAGE, INABILITY TO DIAL 911 USING THE SERVICES, AND/OR INABILITY TO ACCESS EMERGENCY SERVICE PERSONNEL. CUSTOMER AGREES TO DEFEND, INDEMNIFY, AND HOLD HARMLESS COMCAST AND THE COMCAST ASSOCIATED PARTIES FROM ANY AND ALL CLAIMS, LOSSES, DAMAGES, FINES, PENALTIES, COSTS, AND EXPENSES (INCLUDING BUT NOT LIMITED TO REASONABLE ATTORNEY FEES) BY, OR ON BEHALF OF, CUSTOMER OR ANY THIRD PARTY OR USER OF THE SERVICES RELATING TO THE FAILURE OR OUTAGE OF THE SERVICES, INCLUDING THOSE RELATED TO 911/E911.

9.11 911 Email Address. Comcast provides an email notification to Customer from

Do_Not_Reply_911@comcast.com (the "**911 Email Address**") when a 911 call has been made unless Customer has opted out from receiving such notification from Comcast. It is Customer's sole responsibility to provide an email address to Comcast and to keep such email address up to date. It is also Customer's responsibility to ensure that Customer's email does not filter, spam and/or block any emails from the 911 Email Address.

9.12 Recommended Battery Back-Up is NOT Included. Customer acknowledges and agrees that the Service uses electrical power from the Service Location. Customer also acknowledges and agrees that Customer will lose access to and use of the Services, including 911/E911, if electrical power to Comcast Equipment, Customer-Provided Equipment, and/or the Required Customer Service is interrupted, and such devices are not supported by a working battery backup. Comcast does not provide a battery backup for such devices and Customer is urged to arrange for their own backup power supply to these devices. In the event of a power outage, provided the underlying network is still operational, the duration of the Service during a power outage using the Customer-Provided Equipment to provide Services will depend on Customer's backup power choice. If the Customer-Provided Equipment is disconnected or removed during a power outage and/or a battery is not charged, Services, including access to 911, will not be available. Customer acknowledges and agrees that in the event of a power failure, Comcast bears no responsibility for such loss of Service.

9.13 Emergency Services Administrative Lines. Customer acknowledges and agrees that Customer must provide Comcast with prior written notice before using the Service for any administrative lines intended to serve as a backup method for receiving emergency calls during a 911/E911 service disruption. Customer may not use the Service in this manner unless and until Comcast has reviewed and approved the request in writing, and Comcast will have ten (10) business days from receipt of complete notice to conduct its review and issue its approval, which Comcast may withhold or condition to address technical, security, capacity, operational, or regulatory considerations. For clarity, the Service is not a substitute for traditional 911/E911, Comcast disclaims any warranty of availability or suitability for emergency calling, and Customer remains solely responsible for compliance with all applicable laws and for maintaining alternative means of access to emergency services, to the maximum extent permitted under applicable law.

**ARTICLE 10: EQUIPMENT REQUIREMENTS;
INCOMPATIBLE EQUIPMENT; CUSTOMER
RESPONSIBILITY FOR CUSTOMER-
PROVIDED EQUIPMENT**

10.1 Equipment Requirements.

(a) **Network Hardware Equipment.** In order to use the Business VoiceEdge® Dedicated Service, Customer must use an Enterprise SIP Gateway (“ESG”). Customer must lease the ESG from Comcast. Such equipment is Comcast Equipment.

(b) **Premise Hardware Equipment.** To use the Business VoiceEdge Dedicated Service, Customer must use a Comcast IP phone handset, conference device, or analog terminal adapter (“ATA”) or another adapter device as determined by Comcast during the technical interview described below. Customer must lease an IP phone handset, conference device and/or ATA from Comcast. Such equipment is Comcast Equipment. Customer shall be solely responsible for any equipment plugged into the ATA and such equipment plugged into the ATA shall be considered Customer-Provided Equipment.

(c) **Equipment List.** For a full list of all compatible devices, Customer must contact its Comcast sales representative or Comcast customer support.

10.2 Incompatible Equipment and Services.

Customer acknowledges and agrees that Service may not support or be compatible with:

(a) Certain non-voice communications equipment, including certain makes and models of alarm and security systems, certain medical monitoring devices, certain fax machines, and certain “dial-up” modems;

(b) Rotary-dial phone handsets, pulse-dial phone handsets, and models of other voice-related communications equipment such as certain private branch exchange (“PBX”) equipment, answering machines, and traditional Caller ID units;

(c) Casual/dial around (10-10) calling; 976, 900, 700, or 500 number calling;

(d) 211 or 311 calling; or

(e) Other call types not expressly set forth in Comcast’s product literature (e.g., outbound shore-to-ship calling).

Customer’s attempt to use any such systems or services in connection with the Service is solely at its own risk and Comcast shall not be liable for any damages whatsoever for any non-operation or damage to such services or devices.

**10.3 Customer Responsibility for Customer-
Provided Equipment.**

(a) Customer is solely responsible for (i) purchasing/providing, configuring and maintaining working gateways (if required pursuant to Section 10.1), telephones, handsets and all other Customer-Provided Equipment, (ii) notifying and training its users regarding proper use of the (A) Customer’s system in accordance with applicable requirements (including but not limited to any legal and/or regulatory requirements) and (B) feature functionality maintained on any Customer-Provided Equipment, including but not limited to extension dialing, call forwarding and call configurations and (iii) any programming to its telephone system that may be necessary to enable direct dialing of N11 numbers and mandated 3-digit dialing codes and to enable calls to be connected to new area codes. Support of such N11 numbers and mandated 3-digit dialing codes may include configuration of features maintained by Customer, for which Customer is solely responsible for maintaining. Except as set forth in Section 10.2(d), Comcast will support N11 and mandated 3-digit dialing codes in areas where such codes are made available by the local municipality. Customer also acknowledges and agrees that Comcast only supports seven-digit local calling in certain areas of the United States that still permit that option, and Customer will program its system as necessary to support ten-digit dialing for local calls.

(b) Comcast shall not be responsible to the Customer if changes in any of the facilities, operations or procedures of Comcast utilized in the provision of Services render any Customer-Provided Equipment or other equipment provided by a Customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.

(c) Customer must arrange its Customer-Provided Equipment to provide for the interception of assigned but unused station numbers. A call intercepted by the attendant will be considered to be completed and subject to a charge for the call.

(d) Customer is solely responsible for origination or termination of misconfigured calls, such as calls originated with an invalid telephone number or telephone numbers reserved as “Do Not Originate.”

**ARTICLE 11: ADDITIONAL LIMITATIONS
ON COMCAST’S LIABILITY**

**11.1 Limitations on Comcast’s Liability for
Directories and Directory Assistance. IN THE**

EVENT THAT (a) COMCAST MAKES AVAILABLE AN OPTION TO LIST CUSTOMER'S NAME, ADDRESS, AND/OR TELEPHONE NUMBER IN A PUBLISHED DIRECTORY OR DIRECTORY ASSISTANCE DATABASE, (b) CUSTOMER PROVIDES COMCAST SUCH INFORMATION TO BE PUBLISHED IN THE DIRECTORY OR DIRECTORY ASSISTANCE, AND (c) ONE OR MORE OF THE FOLLOWING CONDITIONS OCCURS: (i) CUSTOMER REQUESTS THAT CUSTOMER'S NAME, ADDRESS AND/OR PHONE NUMBER BE OMITTED FROM A DIRECTORY OR DIRECTORY ASSISTANCE DATABASE, BUT THAT INFORMATION IS INCLUDED IN EITHER OR BOTH; (ii) CUSTOMER REQUESTS THAT CUSTOMER'S NAME, ADDRESS AND/OR PHONE NUMBER BE INCLUDED IN A DIRECTORY OR DIRECTORY ASSISTANCE DATABASE, BUT THAT INFORMATION IS OMITTED FROM EITHER OR BOTH; OR (iii) THE PUBLISHED OR LISTED INFORMATION FOR CUSTOMER'S ACCOUNT CONTAINS MATERIAL ERRORS OR OMISSIONS AND (d) THE CONDITIONS SET FORTH IN SUBSECTION(c)(1), (c)(2) OR (c)(3) ARE DIRECTLY ATTRIBUTABLE TO COMCAST'S ACTIONS OR FAILURE TO ACT, THEN THE AGGREGATE LIABILITY OF COMCAST AND THE COMCAST ASSOCIATED PARTIES SHALL NOT EXCEED THE MONTHLY RECURRING CHARGES, IF ANY, WHICH CUSTOMER HAS ACTUALLY PAID TO COMCAST TO LIST, PUBLISH, NOT LIST, OR NOT PUBLISH THE INFORMATION FOR THE AFFECTED PERIOD. CUSTOMER SHALL DEFEND, INDEMNIFY AND HOLD HARMLESS COMCAST AND THE COMCAST ASSOCIATED PARTIES AGAINST ANY AND ALL CLAIMS FOR DAMAGES CAUSED OR CLAIMED TO HAVE BEEN CAUSED, DIRECTLY OR INDIRECTLY, BY THE ERRORS AND OMISSIONS REFERENCED IN SUBSECTION (c)(1), (c)(2) AND/OR (c)(3). IF ANY OF THE AFOREMENTIONED CONDITIONS OCCUR AND ARE NOT A RESULT OF COMCAST'S ACTION OR FAILURE TO ACT, COMCAST WILL NOT BE LIABLE FOR ANY ACTS, ERRORS, OR OMISSIONS RELATED TO SUCH CONDITIONS. FURTHERMORE, IF COMCAST MAKES AVAILABLE DIRECTORY ADVERTISING SERVICES, NEITHER COMCAST NOR ANY OF THE COMCAST ASSOCIATED PARTIES WILL BE LIABLE FOR ANY ACTS, ERRORS, OR OMISSIONS RELATED TO SUCH DIRECTORY ADVERTISING.

11.2 Customer Information. Comcast and its suppliers reserve the right both during the term of the Agreement and upon the termination of the Agreement to delete Customer's voicemail, call detail, data, files, or other information that is stored on Comcast's or its suppliers' servers or systems, in accordance with Comcast's then-current storage and/or retention policies. Customer acknowledges and agrees that Comcast shall have no liability whatsoever as a result of the loss or removal of any such voicemail, call detail, data, files, or other information.

11.3 Call Verification. Customer may be receiving enhanced Caller ID services that provide Customer with an indicator on calls when the caller's voice provider has indicated that the call is coming from a telephone number that has not been illegally falsified or spoofed. Customer acknowledges and agrees that an indicator that a particular calling telephone number has been authenticated or verified does not mean that the call is a desired call or a legitimate call. Similarly, Customer acknowledges and agrees that the lack of a "verified" indicator does not mean that the call is an unwanted or illegitimate call. Customer is responsible for protecting itself from fraudulent calls. Comcast shall have no liability for any actual or alleged damages claimed to be caused, directly or indirectly, as a result of Customer's reliance on enhanced Caller ID services.

ARTICLE 12: USAGE BILLING

12.1 Service calling plans billed as a flat monthly fee may not include certain call types. These excluded call types will instead be charged on a per-call basis (e.g., operator services) or a measured basis (e.g., outbound, international calls). Generally, for billing purposes, a measured call begins when the call is answered by the called party or an automated answering device (such as an answering machine, voicemail or fax machine); it ends when one of the parties disconnects the call.

12.2 Except as otherwise provided in this Product-Specific Attachment ("PSA"), all Service calls are measured in whole minutes, with partial minutes rounded up to the next whole minute. If the computed charge for a measured call or for taxes or surcharges includes a fraction of a cent, the fraction is rounded up to the nearest whole cent.

12.3 Notwithstanding anything to the contrary in the Agreement, some providers (e.g., those involved in calls to foreign countries) charge for a completed call when the called party's line rings or after a certain number of rings. If such a provider charges Comcast or any Comcast Associated Party as if such a call were

answered by the called party, Comcast will charge Customer for a completed call. Service pricing lists and fees can be found at

<https://www.xfinity.com/corporate/about/phoneterms/ofservic/comcastdigitalvoice/CDVBStatePricing>.

12.4 Except as otherwise prohibited by applicable law, calls invoiced on a per-minute basis will have an initial minimum call duration of one (1) minute, subsequent intervals of one (1) minute each, and will be billed by rounding to the next whole minute. Comcast reserves the right to round up any and all Service invoice amounts to the nearest one cent (\$0.01).

ARTICLE 13. ADDITIONAL LICENSED SOFTWARE TERMS

In addition to the use restrictions set forth in the General Terms and Conditions, as a condition of use of the Licensed Software, Customer shall not (a) transfer, assign or sublicense the Licensed Software to any other person, organization or entity, (b) attempt to create any derivative versions thereof, or (c) de-compile, decrypt, reverse engineer, disassemble or otherwise reduce same to human-readable form.

ARTICLE 14: ADDITIONAL TERMS APPLICABLE TO WEBEX

Comcast is authorized by Cisco to resell Webex licenses. In order to use Webex, Customers must download the Webex software component from Cisco, after which Customers may use such software component to access the Webex cloud-based component. In connection with and as a condition of such resale and download, and subsequent use by Customer, Customer acknowledges and agrees that Customer's use of Webex is governed by (a) the Webex Privacy Policy available at <https://www.cisco.com/c/en/us/about/legal/privacy.html>, (b) the Cisco Privacy Data Sheets relating to Webex available at https://trustportal.cisco.com/c/r/ctp/trust-portal.html#/customer_transparency, (c) the Cisco End User License Agreement available at www.cisco.com/go/eula, and (d) the product specific terms available at <http://www.cisco.com/go/cloudterms> (as each of the foregoing may be updated by Cisco from time-to-time, collectively, "Pass-Through Terms"). Customer accepts the Pass-Through Terms.

Notwithstanding anything else in the General Terms and Conditions or this PSA to the contrary, Customer acknowledges and agrees that: (v) Webex is not part

of the Services; (w) Comcast has no obligations or liability arising from or relating to Webex; (x) Comcast may increase Services fees to take into account any increase in the fees charged by Cisco for Webex; (y) Cisco may terminate or suspend Customer's access to or use of Webex as set forth in the Pass-Through Terms; and (z) Comcast may stop reselling Webex licenses to Customer at any time to the extent required by Cisco or Comcast loses the right to do so from Cisco. Comcast hereby disclaims, and Customer hereby discharges, waives and releases Comcast from any past, present and future claims, liabilities and damages, known or unknown, arising out of or relating to Webex.

ARTICLE 15: ADDITIONAL TERMS APPLICABLE TO COMCAST SEATS FOR MICROSOFT TEAMS

In addition to Articles 1 through 13 above, Article 15 is specifically applicable to the Comcast Seats for Microsoft Teams portion of the Service:

In order to access and use Comcast Seats for Microsoft Teams, Customer must use the Comcast Business Connector Portal. In connection with and as a condition to use by Customer of the Comcast Business Connector Portal, Customer acknowledges and agrees that: (a) Customer's access and use of the Comcast Business Connector Portal is limited to Customer's business purposes and solely in connection with the Comcast products/services Customer receives from Comcast for the specified duration in the Service Order; (b) Customer may make and use a reasonable number of copies of the user instructions (both written and electronic), installation guides, technical manuals, and any other written or electronic documentation made available in connection with the Comcast Business Connector Portal to support Customer's use of the Comcast Business Connector Portal in accordance with this PSA and the General Terms and Conditions; (c) Customer must not: (i) attempt to create or recreate the source code for the Comcast Business Connector Portal, or re-engineer, reverse engineer, decompile or disassemble the Comcast Business Connector Portal; (ii) modify, adapt, translate or create derivative works based upon the Comcast Business Connector Portal; (iii) remove, erase or tamper with any copyright or other proprietary notice embedded in the Comcast Business Connector Portal; or (iv) sublicense, sell, lease, rent, timeshare, or otherwise transfer, or pledge as security the Comcast Business Connector Portal or Customer's access to the Comcast Business Connector Portal; (d) by providing a user access to the Comcast Business

Connector Portal, such user may have access to Customer's Service(s) details, usage and technical information, and Customer Proprietary Network Information (CPNI); (e) Comcast makes no representations or warranties about the Comcast Business Connector Portal and Comcast may change, modify, or alter at any time the information or functionality to which Customer will have access through the Comcast Business Connector Portal; (f) Comcast may immediately suspend Customer's access to the Comcast Business Connector Portal in its sole discretion, including without limitation, to address an emergency or threat to the security or integrity of Comcast's or Comcast's licensor's equipment, information, systems, or personnel; (g) Customer shall be responsible for the security, confidentiality, and use of Customer's username, password, and other security data; (h) Customer shall not provide any false identity information to gain access to or use the Comcast Business Connector Portal; (i) Customer shall be solely responsible for all information or orders (which shall include the submission of trouble tickets) electronically transmitted or use of any data, information, or Services obtained using Customer's username, password, and other security data; (j) Customer is solely responsible for the acts and omissions of all of its Comcast Business Connector Portal users and for promptly updating or revoking access when a user's role changes; (k) Customer must immediately notify Comcast if a user needs to be removed from the Comcast Business Connector Portal; (l) Customer shall not use the Comcast Business Connector Portal except as authorized, and shall not make the Comcast Business Connector Portal available to any third parties; (m) use of the Comcast Business Connector Portal shall be consistent with this PSA and the General Terms and Conditions; (n) Customer shall immediately notify Comcast if there is any unauthorized use of Customer's account usernames, passwords or other security data or any use inconsistent with the terms of this PSA or the General Terms and Conditions; (o) Comcast is not responsible for any information provided by Customer to third parties and Customer assumes all privacy and other risks associated with providing personally identifiable information to third parties via the Service and (p) COMCAST SHALL NOT BE RESPONSIBLE OR OBLIGATED FOR ANY COSTS, FEES, EXPENSES OR LIABILITIES ACCRUING AS A RESULT OF ANY UNAUTHORIZED USE OF THE COMCAST BUSINESS CONNECTOR PORTAL, CUSTOMER'S USERNAMES, PASSWORDS, ACCOUNT, OR OTHER SECURITY DATA. Notwithstanding anything else in the General Terms

and Conditions or this PSA to the contrary, Customer acknowledges and agrees that: (v) Comcast has no obligations or liability arising from or relating to the Comcast Business Connector Portal; (x) Comcast may increase Services fees to take into account any increase in the fees charged by Comcast's third-party provider for the Comcast Business Connector Portal; (y) Comcast's third-party provider may terminate or suspend Customer's access to or use of the Comcast Business Connector Portal if Customer violates this PSA or the General Terms and Conditions; and (z) Comcast may stop reselling the Comcast Business Connector Portal licenses to Customer at any time to the extent required by Comcast's third-party provider or if Comcast loses the right to do so from Comcast's third-party provider. Comcast hereby disclaims, and Customer hereby discharges, waives and releases Comcast from any past, present and future claims, liabilities and damages, known or unknown, arising out of or relating to the Comcast Business Connector Portal.

**COMCAST ENTERPRISE SERVICES
PRODUCT-SPECIFIC ATTACHMENT
BUSINESS VOICEEDGE®**

**SCHEDULE A-1
SERVICE DESCRIPTION AND TECHNICAL SPECIFICATIONS**

Comcast’s Business VoiceEdge will be provided in accordance with the service descriptions and technical specifications set forth below.

1. Service Description

Comcast Business VoiceEdge (“BVE”) is a cloud-based PBX that provides Customers with a unified communications experience from Customer’s users’ desk phone, mobile phone, or computer. The Services described in the table below may be purchased individually or in certain combinations, as made available by Comcast and as set forth in a Service Order.

BVE Seats	Description
Basic Seat	A basic seat that includes all BVE Core Features. Customer must associate a physical device to the seat in order to complete calls.
BVE with Webex Standard Seat**	A seat that combines Basic Seat voice calling with Webex – Standard features that adds the ability to host up to 100 users in a personal meeting room (“PMR”) with a dedicated dial-in number. Includes features such as emergency calling, hunt group, outbound call plan (domestic unlimited and international call plan), and voicemail service with transcription features for business voice calls.
BVE with Webex Premium Seat**	A seat that combines Basic Seat voice calling with Webex – Premium features that increases the PMR count to 1000 attendees and provides additional meeting controls. Includes features such as emergency calling, hunt group, outbound call plan (domestic unlimited and international call plan), and voicemail service with transcription features for business voice calls.
Comcast Seats for Microsoft Teams	Subject to Section 1(A) below, Customer can purchase the Comcast Seats for Microsoft Teams for an additional monthly fee. Customer must procure and maintain at least two (2) Microsoft Teams licenses to use this feature. The Comcast Seats for Microsoft Teams feature provides Customer with Direct Routing of calls placed to/from to the Comcast voice network within Customer’s Microsoft Teams instance. More specifically, this feature includes the provision and management of calls and telephone numbers for Customers integrating Microsoft Teams via Direct Routing. Once purchased, Customer will receive a license to the Comcast Business Connector Portal, which enables Customer to manage the configuration of the scripting/connection via PowerShell.
Unified Communication (“UC”) Seat*	An all-in-one UC seat that includes all BVE Core Features (as defined below) plus access to the Business VoiceEdge desktop application and Comcast Business mobile application to make and receive phone calls.

*The UC seat cannot be used in conjunction with the Basic, Webex Standard, or Webex Premium seats.

**For clarity and avoidance of doubt, each of the BVE with Webex options (Standard or Premium) described in the table above includes, combines or is bundled with a Basic Seat. Webex is not available for purchase from Comcast separate from a Basic Seat.

The following features are core features of the Service (the “BVE Core Features”) and included with the UC Seat,

Basic Seat, BVE with Webex Standard Seat and BVE with Webex Premium Seat.

Core Feature	Description
Alternate Numbers	An Alternate Number is a phone number that can receive inbound calls only to a number within Customer's BVE account. If a Customer has inventory numbers available, the inventory numbers can be used as alternate numbers.
Automated Attendants	Automated Attendant ensures that incoming calls receive prompt, consistent, and professional treatment. Callers route themselves via menu prompts directly to the specific information or department they seek. Customers can configure Automated Attendants under the Automated Attendants section.
Busy Lamp Field	The Busy Lamp Field (BLF) feature allows Customers to view when any of Customer's users are on the phone. Assign users to the feature and a light next to their name on Customer's Poly phone and such light will indicate if a user is on the line or not.
Call Forwarding	Call Forwarding allows Customers to redirect calls to another number if a user is out of the office for an extended period.
Call History	Customers can review combined call history for all the Service Location's seats in the Call History section of Comcast Business MyAccount account (" MyAccount "). View the last 60 missed, received, and outgoing calls in one page with easy access to export and filter results.
Call Park	Call Park allows users to suspend (park) a call to a specific location (extension) and then retrieve that call from any phone device in the account.
Call Pickup Groups	Call Pick Up Groups allows Customers to answer calls directed to any extension within a created group. Business VoiceEdge admins can create a pickup group comprised of selected users.
Caller ID	Business VoiceEdge admins can manage caller ID settings for Business VoiceEdge users and unused seats. This includes their external caller ID number and internal caller ID name.
Hunt Groups	Hunt Groups allow users within a group to be included in a specified sub-group to handle incoming calls received by an assigned Hunt Group's phone number. Customers can add users to a hunt group and manage Customer's hunt groups under the Hunt Groups section.
Key System Emulation	A custom Parking Lot and Key System Emulation (" KSE ") on Customer's device allows you to place callers on hold and be picked up from another KSE-enabled device. KSE also allows users to simply transfer a call by pressing one button using BVE's Key System technology.
Music on Hold	<p>Music on hold allows audio to be played for callers patiently waiting on hold.</p> <p>If Customer uploads a file (or directs Comcast to do so), Customer represents and warrants that it has obtained all necessary rights and permissions to use and play the file as contemplated, and that use of the file will not infringe, misappropriate, or violate any intellectual property, publicity, or privacy rights of any third party or violate any applicable laws. Customer is solely responsible for obtaining and maintaining any rights or permissions necessary to use the file with the Service, and at Customer's expense, shall defend, indemnify, and hold harmless Comcast, its parents, Affiliates, subsidiaries, and their officers, directors, agents, and employees from and against any third-party claim or action (including reasonable attorneys' fees and costs) arising out of any file Customer uploads (or directs Comcast to upload), including but not limited to alleged infringement or breach of the foregoing representations and warranties.</p>
Paging	The Comcast Business VoiceEdge paging feature allows Customers to deliver a message simultaneously to all users, within a paging group, via the speaker in their phone.

Core Feature	Description
Reset Login Credentials	If a user forgets their account password or their voicemail PIN, an admin can send a password or PIN reset email directly from MyAccount.
Shared Call Appearance	Shared Call Appearance displays the same telephone number across multiple devices or users. For example, if an executive wants their administrative assistant to make and receive calls on their behalf, they could use Shared Call Appearance. All calls directed to the executive’s number would simultaneously be received on the administrative assistant’s line.
Voicemail	Allows callers to leave a message if a user is unavailable. Admins can manage voicemail for voicemail only seats and on behalf of other users. Voicemail recordings and voicemail transcripts created before June 30, 2026 will be retained for the earlier of (a) the date the voicemail recording or voicemail transcript is deleted by the applicable admin or user and (b) June 30, 2028. Voicemail recordings and voicemail transcripts created on or after June 30, 2026 will be retained for the earlier of (i) the date the voicemail recording or voicemail transcript is deleted by the applicable admin or user and (ii) two (2) years from the date the voicemail recording or voicemail transcript is created. Customer acknowledges and agrees that after the applicable retention period expires, Customer will no longer have access to any voicemails or voicemail transcripts. Customers requiring longer-term access may download voicemails and voicemail transcripts or archive them externally prior to the expiration of the applicable retention period.

The following enhanced features may be purchased, as made available by Comcast, as add-ons to the Services described in the “BVE Seats” table above. The enhanced features may be purchased individually or in certain combinations, as made available by Comcast.

Enhanced Feature	Description
Additional Voicemail Box	Additional Voicemail Box is an additional service Customer can add on that allows callers to leave a message if Customer is unavailable. Admins can manage voicemail for voicemail only seats and on behalf of other Customer users.
Call Queue Agent	Call Queue is an additional service Customer can add on that allows Customer to distribute calls among a group of employees. If all employees are busy, calls will be queued until someone becomes available.
Receptionist Console	The Receptionist Console is an additional service Customer can add on that is a web-based attendant console that manages and screens inbound calls for Customer’s business.

A. Additional Terms Applicable to Comcast Seats for Microsoft Teams

The Services includes a seat type, Comcast Seats for Microsoft Teams, that, if purchased, enabled and properly configured, can provide Customer with access to the Comcast telephone network via a SIP connection between the Comcast telephone network on one end and Customer’s qualifying Microsoft Teams license (a “**Required Customer Service**”) on the other end. Once enabled, Customer can complete local, long-distance, and international calling, subject to applicable rates, configurations and calling restrictions.

If Customer purchases the Comcast Seats for Microsoft Teams feature, Customer must provide a Microsoft Teams license to connect to the Comcast telephone network. Customer is solely responsible for, at Customer’s own expense, (i) procuring, configuring, securing, operating and maintaining all required licenses to access and use Microsoft Teams in the manner contemplated in this PSA and (ii) securing any licenses, certificates, permissions, authorizations, approvals and/or capacity required by Customer’s Microsoft Teams provider in order to connect to or use Customer’s Microsoft Teams licenses with the Service. Customer is also solely responsible for configuring Customer’s Microsoft Teams licenses and connecting the Customer’s Microsoft Teams licenses to the Comcast telephone network. Such connection can be either physical or virtual. Customer is responsible for maintaining settings and firmware on all gateways.

Customer acknowledges and agrees that Comcast will not provide any Microsoft Teams license in connection with the Service and it is Customer's sole responsibility to secure and maintain such licenses. Comcast will not provide any maintenance or support in connection with Microsoft Teams. If Customer fails to maintain or misconfigures Customer's Microsoft Teams licenses, the Service will not operate, including but not limited to 911 calling. Comcast will not be liable for any degradation, interruption, unavailability, quality issues, security incidents, or Customer noncompliance to the extent caused by or attributable to Microsoft Teams, including but not limited to missing, expired, misconfigured, insufficient licenses, certificates, or capacity.

All use of Microsoft Teams is subject to Microsoft's current universal license terms and product-specific license terms (available at <https://www.microsoft.com/licensing/terms/>) (as the same may be updated by Microsoft from time to time) and all applicable Microsoft privacy and security policies (available at <https://www.microsoft.com/licensing/terms/product/PrivacyandSecurityTerms/all>) (as the same may be updated by Microsoft from time to time). Customer must review and agree to these terms prior to using Microsoft Teams with any Comcast service. Customer understands and agrees that it is responsible for understanding and complying with Microsoft's requirements and standards, and it must review and agree to all of Microsoft's license terms and policies, including Microsoft's Privacy Statement, prior to using Microsoft Teams with any Service(s) provided by Comcast and/or Comcast's third-party vendor and Customer acknowledges that it has reviewed and agreed to the Microsoft end user licensing terms and applicable Microsoft policies for the Microsoft Teams services selected by Customer.

Notwithstanding anything to the contrary, Customer acknowledges and understands that the accurate routing of emergency calls depends, in significant part, on each of end user confirming and maintaining a current and accurate registered location within the Microsoft Teams environment. Customer shall, promptly upon activation of the Service and at all times thereafter during the Term, enable and maintain a custom emergency service disclaimer banner (the "**Emergency Banner**") within Customer's Microsoft Teams instance, as described in Microsoft's documentation regarding Microsoft Teams emergency calling policies. Customer shall ensure that all end users are informed of, and comply with, the obligation to respond to each Emergency Banner prompt by confirming or updating their current location information. Customer shall instruct all end users that they must not dismiss the Emergency Banner without first verifying that their registered emergency address is accurate and current. In the event that Customer fails to enable or maintain the Emergency Banner in accordance with this Section or fails to ensure end user compliance with Emergency Banner prompts, Customer shall bear sole responsibility for any consequences arising from the misrouting of emergency calls placed by end users through the Service. Comcast shall have no liability whatsoever for any damages, injuries, losses, claims, or expenses arising from or related to (a) Customer's failure to enable or maintain the Emergency Banner, (b) any end user's failure to respond to an Emergency Banner prompt or to confirm or update their registered emergency address, or (c) any misrouting of an emergency call resulting from inaccurate, incomplete, or outdated location information associated with an end user. Customer shall indemnify, defend, and hold harmless Comcast and the Comcast Associated Parties from and against any and all claims, damages, losses, liabilities, costs, and expenses (including reasonable attorneys' fees) arising out of or relating to (i) Customer's breach of any obligation set forth in this Section, including any claim by an end user or third party arising from the misrouting of an emergency call attributable to Customer's failure to enable or maintain the Emergency Banner or to ensure end user compliance with Emergency Banner prompts or (ii) any misrouting of an emergency call resulting from inaccurate, incomplete, or outdated location information associated with an end user.

In order to use the Comcast Seats for Microsoft Teams feature, Customer must maintain the (i) Underlay Connectivity Service and (ii) Required Customer Service. The compatibility and encryption requirements are posted online at <https://www.cb-bve.com> (as the same may be updated by Comcast from time to time).

B. Additional Terms Applicable to Call Recording Feature

The Business VoiceEdge call recording feature ("**Call Recording**") enables Customers that have a Business VoiceEdge Basic Seat, Webex Standard Seat or Webex Premium Seat, or a Comcast Seat for Microsoft Teams, to record Public Switched Telephone Network ("**PSTN**") calls, including voicemails. More specifically, once Call Recording is enabled by Customer, all (a) PSTN calls placed to/from Customer's Business VoiceEdge desktop phone or Teams instance (for Customers with Comcast Seats for Microsoft Teams) and (b) Webex PSTN calls placed to/from Customer's Webex desktop or mobile application, will be recorded. Call Recording has three recording modes:

- Never record calls – no calls will be recorded for the user

- Always record calls (Allow Pause and Resume) – every call for this user will be recorded from the start of a call, but the user has the ability to pause a recording and resume a recording at any point during a call
- Record calls on demand – no calls will be recorded for the user at the start of the call, but the user can choose to (a) manually enable recording at any point, (b) pause a recording (c) resume a recording at any point during a call or (d) stop a recording at any point

Customer is solely responsible for managing the Call Recording recording mode. Customer acknowledges and understands that the default recording mode setting for Call Recording is “Never record calls” (i.e., disabled) and that Customer must change the recording mode to “Always record calls” or “Record calls on demand” in order to record its PSTN calls. With respect to voicemails, the default recording mode setting is to never record voicemails, and Customer must select the “Enable Voicemail Recording” option under the user settings, which, when enabled, will record the voicemail in this Call Recording feature. **Comcast does not support using Call Recording if either the Teams Recording Feature (as defined below) or the Microsoft Teams music on hold features are enabled.**

Once Call Recording is enabled by Customer in the Call Recording web application (the “**Web Application**”), Customer and Customer’s users can start, pause, and resume recordings of PSTN calls (a) in the Webex desktop or mobile application or (b) by hitting the “Record” soft key on the telephone if Customer has any of the following devices:

- Polycom/VVX 250
- Polycom/VVX 350
- Polycom/VVX 450
- Poly CCX 500
- Poly CCX 600

All other devices that are supported by Business VoiceEdge will require the use of Feature Access Codes (also known as Star Codes) in order to start, pause and resume recordings.

Code	Control
*44	Start recording
*45	Stop recording
*48	Pause recording
*49	Resume recording

The current URL for the Web Application is <https://voiceedge-callrec.comcast.com/recordings> (as the same may be updated by Comcast from time to time).

Customer’s administrators can access all PSTN call recordings in the Web Application. Recordings will only be retained for the earlier of (a) the date an administrator deletes a recording and (b) forty-five (45) days after the recording is created (the “**Recording Retention Period**”). Customer acknowledges and agrees that after the Recording Retention Period, Customer will no longer have access to any recordings. Customers requiring longer-term access may download recordings or archive them externally prior to the expiration of the Recording Retention Period.

Call Recording has 2 access roles: Business VoiceEdge MyAccount Admin and Business VoiceEdge User. These roles permissions are split as the below table:

	Admin	User
View a list of recordings for all users	•	
View a list of recordings made/placed by user		•
Sort and filter the list of recordings	•	•
Listen to recordings for all users	•	
Listen to recordings created by user		•
Delete recordings (Single or Bulk)	•	
Download a recording as an MP3 (Single)	•	•

	Admin	User
Attach and remove tags to recordings	●	●
Export the list of recordings as a CSV file (Single or Bulk)	●	●
View and update quality assurance ratings	●	
View the Tag Library	●	
Sort and filter the Tag Library	●	
Add / Edit / Delete tags from the Tag Library	●	
View the User Directory	●	
Sort and filter the User Directory	●	
Export the list of users as a CSV	●	
Update user details, including but not limited to deactivate recording and change recording mode	●	
Select and modify recording mode for all or specific users	●	

In addition to the Business VoiceEdge call recording feature, Customer may enable/disable call recording within Customer’s Microsoft Teams instance (the “**Teams Recording Feature**”). Customer is solely responsible for adding and enabling the Teams Recording Feature to Customer’s Microsoft Teams licenses. Comcast will not be liable for any degradation, interruption, unavailability, quality issues, security incidents, or Customer noncompliance to the extent caused by or attributable to the Teams Recording Feature.

Customer acknowledges that there are laws regarding the notice, notification, and consent requirements for recording conversations that vary from state to state and country to country. It is Customer’s sole responsibility to determine and comply with all international, federal, state, and local laws in any relevant jurisdiction related to Customer’s use of Call Recording and the Teams Recording Feature, including but not limited to recording disclosures and privacy laws. Comcast expressly disclaims all liability with respect to Customer’s use of Call Recording and the Teams Recording Feature. Customer agrees to defend, indemnify, and hold Comcast and the Comcast Associated Parties harmless from any and all demands, claims, suits, costs of defense, reasonable attorney’s fees, witness fees and other expenses for claims relating to or resulting from Customer’s violation of any international, federal, state, or local law in any relevant jurisdiction related to Customer’s use of Call Recording and/or and the Teams Recording Feature.

2. Technical Specifications

The Service can be delivered either (a) over-the-top (“**OTT**”), utilizing Customer’s Underlay Connectivity Service or (b) if Customer is within Comcast’s footprint, Customer can have a Dedicated BVE Modem and ESG installed at the Service Location to have Customer’s voice traffic on a separate, dedicated connection (the “**Business VoiceEdge Dedicated Service**”). The modem and ESG are Comcast Equipment. For additional OTT network requirements, please visit <https://www.cb-bve.com/ott-requirements/>.

3. Service Delivery and Service Management

- A. Technical Interview:** Comcast will engage the Customer in one or several interviews related to the Customer’s technical implementation details and telephone configuration details (e.g., call flows). Comcast will document the requests through a qualification checklist to assist in the Service installation process. The checklist will include information such as hardware choices, number of seats, call flow designs, ported number requests and more.
- B. Delivery and Installation Process:** Customer will work with the Comcast Project Manager to schedule Service installation. If Customer selects a professional installation, a technician will install the Service. If Customer selects a self-installation, the Comcast Equipment will be delivered to the Service Location and Customer, not Comcast, is responsible for unboxing, assembling and installing such Comcast Equipment. will come plug and play and you will be required to unbox and assemble yourself.

- C. **On-Going Solution Support:** Customer can contact its Comcast Project Manager or Solution Design Engineer to make changes to Customer's configuration after the technical interview and before installation has been completed.

4. **Technical Support and Maintenance**

Comcast provides a toll-free telephone number (1-800-741-4141) to Comcast Support (the "**Comcast Support Number**"), that operates on a 24x7x365 basis. Comcast provides technical support for Service-related inquiries. Technical support will not offer consulting or advice on issues relating to Customer-Provided Equipment ("**CPE**") or other equipment not provided by Comcast.

- A. **Escalation:** Service issues should be directed to the Comcast Support Number. Service issue escalations may be escalated by Customer within Comcast Support to a Supervisor after twenty-four (24) hours, to a Manager twenty-four (24) hours following the escalation to a Supervisor, and to a Director twenty-four (24) hours following the escalation to a Manager.
- B. **Maintenance:** Comcast's standard maintenance window is Monday to Friday from 8:00 pm to 6:00am ET. Scheduled maintenance is performed during the maintenance window and will be coordinated between Comcast and the Customer as required. Emergency maintenance is performed as needed.
- C. **Comcast Equipment:** Comcast provides certain Comcast Equipment (e.g., cable modem, ATAs, and/or ESG) for provisioning the Service, which are subject to an additional fee. Comcast will retain ownership and management responsibility for this Comcast Equipment. This Comcast Equipment must only be used for delivering the Service. If you experience issues with any Comcast Equipment, Comcast Support can order a new device to be delivered to replace the broken device that cannot be repaired over the phone (an additional fee may apply).

5. **Customer Responsibilities**

In addition to the ongoing Customer responsibilities set forth in this Product-Specific Attachment and in the General Terms and Conditions, Customers have the following responsibilities prior to the installation of the Service (collectively, the "**Customer Pre-Installation Responsibilities**"):

- A. Providing necessary space and power for the Comcast Equipment;
- B. Ensuring all racks are properly grounded;
- C. Storing any packages delivered for the installation of the Services in a secure, temperature-controlled location that will not be opened by anyone other than Comcast;
- D. Securing all applicable approvals for Comcast to access the Service Location (if any);
- E. Providing an escort that can enable Comcast's access to the buildings and Demarcation Point at the Service Location to allow Comcast. Provide access to each Service Location for regular (8am - 5pm) and emergency (24 hour) service and maintenance of Comcast's equipment and facilities;
- F. Providing a point of contact ("**POC**") and backup POC for installation, Service activation, and any maintenance; and
- G. Ensuring that the Underlay Connectivity Service is installed and operational prior to installation of the Services.

In the event that Customer does not verify its compliance with the Customer Pre-Installation Responsibilities prior to Comcast Seats for Microsoft Teams Customers are also responsible for having, at the time of activation of the Comcast Seats for Microsoft Teams, the following (collectively, the "**Comcast Seats Pre-Activation Responsibilities**"):

- i. At least one (1) active Microsoft Global Administrator account to perform initial configuration, consent to required permissions, and complete onboarding steps and all users participating in the integration,

- including the Microsoft Global Administrator, must hold proper Microsoft licensing in alignment with the Microsoft Teams Phone requirements;
- ii. The following licenses must be available and unassigned at the time of activation:
 - 1. At least two (2) available Microsoft 365 licenses (Business Basic/Standard/Premium or M365/O365 A1/A3/A5, E1/E3/E5);
 - 2. At least two (2) available Microsoft Teams Phone Standard licenses if not A5/E5;
 - iii. Microsoft Entra Admin Center; and
 - iv. Microsoft Teams Admin Center.

In the event that Comcast cannot verify Customer's compliance with the Customer Pre-Activation Responsibilities and the Comcast Seats Pre-Activation Responsibilities (as applicable) prior to the activation of the Service, Comcast shall have the right, in its sole discretion, to delay and/or cancel activation of the Service.

In addition to the ongoing Customer responsibilities set forth above in this Product-Specific Attachment and in the General Terms and Conditions, Customers have the following responsibilities after the installation of the Service (collectively, the "**Customer Ongoing Responsibilities**"):

- a. Ensuring proper wiring to each end point is available;
- b. Ensuring that all Service Locations have active power;
- c. Enabling and disabling Call Recording for each of Customer's administrators and users; and
- d. Managing all Customer recordings that are downloading onto Customer's (including its users) local devices.

**COMCAST ENTERPRISE SERVICES
PRODUCT-SPECIFIC ATTACHMENT
BUSINESS VOICEEDGE®**

**SCHEDULE A-2
SERVICE LEVEL AGREEMENT**

Comcast's Business VoiceEdge® Service is backed by the following Service Level Agreement ("SLA"):

A. Definitions

Capitalized terms not otherwise defined herein shall have the meaning ascribed to them in this PSA or the General Terms and Conditions.

"**Service Interruption**" means an interruption in transmission that renders the Service unusable for transmission and reception. The Service shall be "Available" in the absence of a Service Interruption.

B. Service Level Agreement (SLA)

Comcast's liability, and Customer's sole remedy for Service Interruptions, and errors, omissions, interruptions, delays, outages, or defects in transmission or switching of any Service (individually or collectively, "**Liability**"), shall be limited to the amounts set forth in the chart below with the stated percentages to be applied against the MRC (as defined below) associated with the impacted portion of the Service set forth in the Service Order ("**Availability Credit**"). For the purposes of calculating credit for a Service Interruption, the "**Length of Service Interruption**" begins when the Customer reports such Service Interruption and a trouble ticket is opened, and concludes upon the closing of the same trouble ticket or, if sooner, the termination of the Service Interruption less any time Comcast is awaiting additional information or premises testing from the Customer. In no event shall the total amount of Availability Credit issued to Customer's account on a per-month basis exceed 50% of the total monthly recurring charge ("**MRC**") associated with the impacted portion of the Service set forth in the Service Order. The Length of Service Interruptions for separately occurring Service Interruptions will not be aggregated for purposes of determining Availability Credit allowances. To qualify, Customer must request the Availability Credit from Comcast within thirty (30) days of the beginning of the Service Interruption. Comcast shall not incur any Liability, including Availability Credit, for any failure of the Services caused by force majeure events, Planned Service Interruptions, Customer actions, omission or equipment, Customer-Provided Equipment, or any other items set forth in the "Exceptions to Credit Allowances" section below.

<u>Length of Service Interruption</u>	<u>Amount of Credit</u>
Less than 30 minutes	None
At least 30 minutes but less than 3 hours	1/8 of a day
At least 3 hours but less than 6 hours	1/4 of a day
At least 6 hours but less than 9 hours	2/5 of a day
At least 9 hours but less than 12 hours	1/2 of a day
At least 12 hours but less than 15 hours	4/5 of a day
At least 15 hours and up to and including 24 hours	1 full day

The total number of credit allowances per month shall not exceed the total monthly recurring charge for the affected Service. Credit allowances will not be made for less than \$1.00, unless required under applicable law.

Customer shall bear any expense incurred, e.g., dispatch/labor costs, where a Service Interruption is found to be the fault of Customer or Customer's end users, agents, representatives or third-party suppliers.

C. Exceptions and Terms Applicable to All SLAs

Emergency Blocking

The parties agree that if either party hereto, in its reasonable and sole discretion, determines that an emergency action is necessary to protect its own network, the party may, after engaging in reasonable and good faith efforts to notify the other party of the need to block, block any transmission path over its network by the other party where transmissions do not meet material standard industry requirements. The parties further agree that none of their respective obligations to one another under the Agreement will be affected by any such blockage except that the party affected by such blockage will be relieved of all obligations to make payments for charges relating to the circuit(s) which is so blocked and that no party will have any obligation to the other party for any claim, judgment or liability resulting from such blockage.

Remedy Processes

All claims and rights arising under this Service Level Agreement must be exercised by Customer in writing within thirty (30) days of the event that gave rise to the claim or right. The Customer must submit the following information to the Customer's Comcast account representative with any and all claims for credit allowances: (a) Customer name; (b) Customer account number; (c) Trouble Ticket number(s) opened by the Customer, and (d) basis of credit allowance claim (including date and time, if applicable). Comcast will acknowledge and review all claims promptly and will inform the Customer by electronic mail or other correspondence whether a credit allowance will be issued or the claim rejected, with the reasons specified for the rejection.

Exceptions to Credit Allowances

A Service Interruption shall not qualify for the Credits set forth herein if such Service Interruption is related to, associated with, or caused by: scheduled maintenance events; Customer actions or inactions; Customer-provided power or equipment; any third party not contracted through Comcast, including, without limitation, Customer's users or third-party network providers; any power, equipment or services provided by third parties; or an event of force majeure as set forth in the Agreement, unless otherwise provided under applicable law.

Other Limitations

The remedies set forth in this Service Level Agreement shall be Customer's sole and exclusive remedies for any Service Interruption, outage, unavailability, delay, or other degradation, or any Comcast failure to meet the objectives of the Services.
