

TECHNOLOGY THAT ENABLES YOUR PHONE TO CATCH UP TO THE WAY YOU WORK

Now that you have Comcast Business Voice Mobility, you can be reachable with just one number. Once you sign up for your online account, make sure to download the Comcast Business Voice App for an innovative mobility solution that puts your office phone wherever you are.

HERE ARE THE STEPS TO MAKING THE MOST OUT OF YOUR BUSINESS VOICE MOBILITY LINE:

1. Activate your online business account at business.comcast.com/myaccount – you'll need your account number and zip code or phone number.
2. For each employee who you'd like to assign a line, create them as a new user – assign the new user a phone number, desired online account permissions (billing, services, or both), along with a username (their email address) and password.
3. If using a Comcast Business Microsoft email address, share the email address and password with the new user. If using an existing email, the user will receive an activation link; you'll need to tell them their password.
4. The newly created user must validate their account credentials before logging into the app for the first time.
5. The new user can download and log into the Comcast Business Voice App with their username and password.

FOLLOW THESE EASY STEPS TO DOWNLOAD THE COMCAST BUSINESS VOICE APP:

1. Go to the Apple App Store or Google Play Store.
2. Search for Comcast Business Voice.
3. Download the free app.
4. Sign in with your online credentials that you use to manage your features online.
