## **COMCAST ACQUIRES DEEP BLUE COMMUNICATIONS**

*Industry Leader in Engineering, Installing, and Managing Commercial WiFi Networks to Complement Comcast Business Offerings*

**PHILADELPHIA – May 1, 2019** – Comcast today announced it has completed the acquisition of Deep Blue Communications – a Latham, NY-based industry leader in engineering, installing, and managing commercial WiFi networks. Terms of the acquisition were not disclosed.

The acquisition allows Comcast to combine the power and reliability of its advanced network solutions with intelligent, managed WiFi that creates greater efficiency for businesses and differentiated experiences for customers.

“Customers will benefit from our expertise in advanced business and network solutions with Deep Blue Communications’ know-how in providing commercial, managed WiFi at scale,” said Bill Stemper, President, Comcast Business. “We look forward to delivering innovative solutions that will drive competitive advantage and growth in key vertical industries such as hospitality and entertainment.”

Deep Blue has made the INC 5000 list of the fastest growing companies for the last seven years, and emerged as a leading managed WiFi provider for retail and entertainment venues, as well as a certified provider for several leading hospitality brands.

“At Deep Blue Communications, we are passionate about WiFi. This passion has fueled our 15-year growth into a leading provider of award-winning WiFi solutions that are reshaping the landscape of today’s hospitality and entertainment industries,” said Brian Epstein, CEO, Deep Blue Communications. “We’re thrilled to join Comcast and work with the Comcast Business team. Together, we will connect people, network and advanced applications to deliver ever-evolving network, guest and customer experiences.”

### **About Comcast Corporation**

Comcast Corporation (Nasdaq: CMCSA) is a global media and technology company with three primary businesses: Comcast Cable, NBCUniversal, and Sky. Comcast Cable is one of the United States’ largest video, high-speed internet, and phone providers to residential customers under the Xfinity brand, and also provides these services to businesses. It also provides wireless and security and automation services to

residential customers under the Xfinity brand. NBCUniversal is global and operates news, entertainment and sports cable networks, the NBC and Telemundo broadcast networks, television production operations, television station groups, Universal Pictures, and Universal Parks and Resorts. Sky is one of Europe's leading media and entertainment companies, connecting customers to a broad range of video content through its pay television services. It also provides communications services, including residential high-speed internet, phone, and wireless services. Sky operates the Sky News broadcast network and sports and entertainment networks, produces original content, and has exclusive content rights.
